MITEC TELECOM APPOINTS NEW BOARD CHAIRMAN

Montreal, May 23, 2008 - Mitec Telecom (TSX: MTM), a leading designer and manufacturer of wireless and satellite components, has appointed Jeffrey Mandel to the position of Chairman.

Mr. Mandel has been working with Mitec since May 2006, when he joined the Board of Directors. He is President of AMR Securities Services Inc., a corporate finance consultancy that helps companies reach their financial and commercialization objectives. He has been a key player in the development of Mitec's financial restructuring and turnaround strategy, working with the Board, putting new management in place and liaising with shareholders and investors to build support for Mitec's growth strategy.

"Jeffrey Mandel has helped Mitec define new strategic objectives, build its resource base and prove its capabilities as a leading provider of wireless satellite communications," said Hubert Marleau, Mitec's former Chairman, who will remain a director of Mitec. "This support has helped Mitec's senior management team deliver its first positive cash flow since 2004."

"I have spent the last several months talking to investors, customers and media about Mitec's prospects and opportunities. Their response, as they get a more complete understanding of Mitec, its solid financial position and its revitalized product line, has been overwhelmingly positive," commented Mandel.

"These are very exciting times for Mitec. We are achieving our sales and earnings targets and I am confident that this will continue as we move forward. Since the beginning of 2008, we have won many new contracts due in large part to our innovative engineering capabilities, the addition of efficient, new manufacturing capacity in China and the synergies we are realizing from our acquisition strategy. I am pleased to have the opportunity to serve as Chairman and look forward to continue working with my fellow board members, management and employees on the business initiatives underway and those on the horizon to continue increasing shareholder value."

In his capacity as Chairman, Mr. Mandel will continue to manage Mitec's investor and corporate communications.

About Mitec Telecom

Mitec Telecom is a leading designer and provider of radio frequency (RF) products for the telecommunications and satellite communications industries, as well as a variety of other sectors. The Company sells its products worldwide to network providers for incorporation into high-performing wireless networks used in voice and data/internet communications. Headquartered in Montreal, Canada, the Company also operates facilities in California and China. Mitec Telecom Inc. is listed on the Toronto Stock Exchange under the symbol MTM.
