MITEC TELECOM EXPANDS ITS CHINA OPERATIONS

Montreal, February 14, 2008 – Mitec Telecom Inc. (TSX: MTM) is pleased to announce that it has expanded its manufacturing capacity in China. The new leased facility will increase Mitec's manufacturing plant to 38,000 square feet compared with its current 20,000 square feet facility. It is expected to be fully operational by April 1, 2008 and is located a few kilometers from Mitec's current location in Suzhou, China. Suzhou's jurisdictional area is home to many high-tech development enterprises and it is one of the most prosperous cities in China.

"Our new building will allow Mitec to further expand its production capacity and give us greater ability to take advantage of lower manufacturing costs associated with operating in China," said Dan Piergentili, Mitec's Chief Executive Officer. "Having a larger facility fits well with our strategy to grow global revenues, improve margins and continue to develop business opportunities in the Asia Pacific market."

"Mitec is one of the few Canadian companies that owns its own subsidiary in China, as many corporations are in joint venture relationships with Chinese entities", said Bruno Dumais, Mitec's Chief Financial Officer. "Having an expanded operation in China will further benefit Mitec by helping to offset the effects of the appreciating Canadian dollar."

About Mitec Telecom

Mitec Telecom is a leading designer and provider of radio frequency (RF) products for the telecommunications and satellite communications industries, as well as a variety of other sectors. The Company sells its products worldwide to network providers for incorporation into high-performing wireless networks used in voice and data/internet communications. Headquartered in Montreal, Canada, the Company also operates a facility in China. Mitec Telecom Inc. is listed on the Toronto Stock Exchange under the symbol MTM. On-line information about Mitec is available at www.mitectelecom.com.
