MITEC RECEIVES THIRD VSAT ORDER FROM CELLULAR OPERATOR IN AFRICA

Montreal, April 2, 2008 - Mitec Telecom (TSX: MTM) announced today that it has received a third order from a major cellular network operator in Africa to provide its Very Small Aperture Satellite Terminal component, known as the VSAT Block Upconverter.

Previously, Mitec delivered orders to this network operator in both January and March 2008.

"We are very pleased to have received another order from this customer, and they have indicated that there is a high probability we will receive additional orders as well," said Robert Mitchell, vice president, global marketing and sales. "Based on our success with this product line, we are exploring opportunities to provide this customer with a more comprehensive product offering as well."

Manufacturing will take place at Mitec's Montreal facility. Deliveries are expected over the next several months.

About Mitec Telecom

Mitec Telecom is a leading designer and provider of radio frequency (RF) products for the telecommunications and satellite communications industries, as well as a variety of other sectors. The Company sells its products worldwide to network providers for incorporation into high-performing wireless networks used in voice and data/internet communications. Headquartered in Montreal, Canada, the Company also operates a facility in China. Mitec Telecom Inc. is listed on the Toronto Stock Exchange under the symbol MTM. On-line information about Mitec is available at www.mitectelecom.com.

Please note: Mitec is generally not able to disclose the names of its major customers or transaction financial data in press releases due to confidentiality provisions that prevent the release of its customers' sensitive competitive information.
